## County of San Luis Obispo

TO: Board of Supervisors

FROM: Public Works  
Michael Boyce, Resident Engineer  
Cori Marsalek, Project Manager

VIA: Dave Flynn, Deputy Director of Public Works

DATE: 5/8/2012

SUBJECT: Submittal of a resolution authorizing execution of Notice of Completion and Acceptance for the construction of San Simeon Creek Bridges on San Simeon Creek Road, Contract Nos. 300153 and 300154.

### **RECOMMENDATION**

It is our recommendation that your Honorable Board adopt the attached resolution, which authorizes the execution and acceptance of a Notice of Completion, for the construction of San Simeon Creek Bridges on San Simeon Creek Road, Contract Nos. 300153 and 300154, Federal Project Nos. BRLO-5949(019) and BRLO-5949(009).

### **DISCUSSION**

This project provided the replacement of two bridges on San Simeon Creek Road, near Cambria (see attached map). These bridges were determined by Caltrans to be structurally deficient and functionally obsolete, making them eligible for funding authorized by the Federal Highway Administration for local bridge replacement.

The Department of Public Works received bids for San Simeon Creek Bridges on San Simeon Creek Road, Contract Nos. 300153 and 300154, Federal Aid Project Nos. BRLO-5949(019) & BRLO-5949(009) on November 18, 2010. Your Board approved the construction contract with Souza Construction, Inc. on January 4, 2011, in the amount of \$1,182,125.26 for Contract No. 300153, and \$1,086,111.40 for Contract No. 300154. This construction contract provided for the construction of replacement of San Simeon Creek Bridge 1 and San Simeon Creek Bridge 2 and roadway improvements.

These bridge replacement construction contracts are now complete. These contracts have improved the health and safety of the public.

By taking the recommended action, your Board will cause the legal Notice of Completion for this construction contract to be recorded, and start the period of time during which liens can be filed by subcontractors against the prime contractor.

## **OTHER AGENCY INVOLVEMENT/IMPACT**

Caltrans Office of Assistance oversaw funding for the project under the Federal Highway Bridge Program HBP.

The projects involved permits through several regulatory agencies including US Army Corps of Engineers, US Fish and Wildlife Service, California Department of Fish and Game, California Water Resources Control Board, California Regional Water Quality Control Board, California Coastal Commission, and County Planning Department.

## **FINANCIAL CONSIDERATIONS**

These two bridge projects are multi-year projects budgeted in the Roads Budget at \$5,009,013. Now that the projects are complete, the total project costs are estimated to be \$4,651,580. Funding for these projects came from the Federal Highway Bridge Program (HBP), Federal Toll Bridge Account and the Road Fund.

Please see Exhibit "A" for an estimated cost breakdown.

A final report of actual project costs will be filed with the clerk after any and all claims, disputes and adjustments have been resolved. We do not anticipate the final project cost to differ materially from the current estimated total. Five percent (5%) of total contractor payments are held by the County and released only after meeting the legal holding period after the Notice of Completion is filed.

## **RESULTS**

By taking the recommended action, your Board will cause the legal Notice of Completion for these construction contracts to be recorded, and start the period of time during which liens can be filed by subcontractors against the prime contractor. This provides for a well governed community.
